- Assisting more people in [navigating their benefits](#) and enabling them to access the necessary resources.

- Growing our adult adaptive recreation program, [Quantum LEAP](#) so more people can experience the [benefits](#) of our activities.
- Creating change does not happen alone. We are excited to advocate with our new [community advocacy group](#).
- It brings us great joy to continue supporting more individuals [in their transition from nursing homes](#) into the [independent living](#) of their choice. We're excited about the possibilities that this new year holds for them.
